

Amir Sohel

Software Engineer

Base Location: Mumbai

Email ID: amir.sohel@capgemini.com

Mobile No: +91 9451223878

Grade: A4

Strengths

Java Full Stack Developer

- Hands-on experience building **microservices** with **Spring Boot**, **Spring Cloud Gateway**, **Eureka Server**, **OpenFeign**, **Config Server**, load balancing and **RESTful APIs**.
- Proficient in developing **Single Page Applications (SPAs)** with **Angular 18**, using standalone components, **Signals**, route guards and HTTP interceptors, styled with **Tailwind CSS**.
- Proficient in integrating **RabbitMQ** with Spring Boot to enable reliable **event-driven architecture** and **asynchronous service communication**.
- Experience implementing **Spring Security** with **JWT** authentication, refresh tokens, BCrypt and **role-based access control (RBAC)**.
- Proficient in unit testing with **JUnit 5** and **Mockito**, and in code quality analysis with **JaCoCo** and **SonarQube**.

Achievement

AeroBook - Airline Reservation Platform

Designed and developed a full-stack airline reservation platform comprising **11 Spring Boot microservices** and an **Angular 18** SPA. Key features include flight search, tiered fare pricing with GST and coupons, booking with **PNR generation**, **Razorpay payments**, web check-in with boarding pass, and role-based dashboards for passengers, staff and admins. Built using **Spring Cloud Gateway**, **Eureka**, **OpenFeign**, **JWT authentication**, **MySQL** (database per service) and **RabbitMQ** for event-driven updates.

AeroBook - Security, Payments & Quality

Secured every request at the gateway with **JWT validation** and **RBAC**, BCrypt hashing and refresh-token rotation. Implemented **HMAC-SHA256** payment verification with automated refunds, **OTP email verification** and **PDF e-ticket** generation using OpenPDF. Ensured quality with **JUnit 5**, **Mockito**, **JaCoCo** and **SonarQube**, and containerized the full stack with **Docker Compose**.

Education and certificates

Bachelor of Engineering

Computer Science and Engineering | 2022 – 2026

Noida Institute of Engineering and Technology | CGPA: 8.08

Certifications

Java Programming & OOP (Coursera)

Database Management System (Infosys)

Python for Data Science & AI (Coursera)

Machine Learning & Deep Learning Foundations (Infosys)

Skills

Java	Core Java (Java 8), OOP, Collections, Generics, Lambda & Stream API, Data Structures & Algorithms, JUnit, Mockito
Spring core	Inversion of Control (IoC) & Dependency Injection, Autowiring
Spring REST	RESTful APIs, HTTP methods, Bean Validation & Exception Handling, Controller, Service & Repository layers
Spring Data JPA	Entity Mapping, Hibernate, Transaction Management, Repository layer
Spring Boot Microservices	Starters, synchronous (OpenFeign) & asynchronous (RabbitMQ) communication, Config Server
Spring Security	Authentication (JWT), BCrypt, Role-based authorization
Spring Cloud	Eureka Server, Spring Cloud Gateway, OpenFeign & Config Server
Messaging	RabbitMQ: exchanges, queues, producers & consumers
Angular	Standalone components, Signals, Router & Guards, HTTP Interceptors, RxJS
Database	SQL, MySQL
UI Tech	HTML5, CSS3, TypeScript, Tailwind CSS, responsive & accessible (WCAG AA) UI
Tools	Git, GitHub, Maven, Postman, Docker, Docker Compose, SonarQube, JaCoCo
Add On skills	Communication, Team collaboration, Problem solving, Debugging
